

WORK CERTIFICATE

We hereby certify that Mr. Gabriel Klein, born on November 24, 1976, worked for our company as Chief Software Architect from June 2, 2008 to August 7, 2011.

In his role, Mr. Klein has performed following duties to our entire satisfaction:

- Implementation of tools and a methodology to enable flexible development, allowing increase of productivity for developers - Subversion, stage fright(nerves), test environment (training course, dev),, automatic deployment of Poken's software.
- Implementation of communication protocols allowing optimizing software and hardware development. Planning and deployment of security protocols.
- Implementation, mentoring and improvement of the API based on communications' protocols - REST, OAuth / OAuth2, Jersey.
- Implementation of a flexible architecture allowing software of meeting the expectations of users.
- Implementation and certificates management of architecture system, with an administrator network on Amazon Web Service - Load balancing, tell delivery network.
- Development and implementation of the heart of Poken's systems and the databases - Java (Popular waltz), J2EE, JSF with API Jersey.
- Development and project management of the development of Poken mobile application of android phones, iPhone and Symbian / Nokia.
- Development and architecture of the critical components of Poken's system.
- Implementation and technological choice for encryption signature algorithms for Poken's platform.
- Creation of the technical documentation for due diligence.
- Coaching and leadership of development team.

Mr. Klein has proven to be a talented software architect and project lead. We relied on him fully on countless occasions and for many business critical projects. In his role he led more junior software architects both on-shore and off-shore, and managed cross-functional projects.

Mr. Klein's good relationship management skills made possible positive interpersonal dynamics, with trust, honesty and openness within the team.

Due to financial constraints, with deep regret, we had to let go of Mr Klein along with other talented key contributors on our team in Lausanne, Switzerland. Mr. Klein will leave us free of any obligation, except for his duty to maintain absolute discretion on all information related to our company. We regret his departure and recommend him to any future employer. We thank him for his invaluable contribution to the company's growth and success. We wish him the best in his career, which without a doubt will be successful.

Lausanne, le 20.07.2011
